Click Wrench Calibration Systems

NEWLY REDESIGNED FOR 2021!

- Test and calibrate torque tools up to 4,000 lbf·ft in capacity manually or automatically

- Built to A.K.O., Inc.'s high standard of accuracy and reliability ensuring a long and reliable operational life

- New high precision drivetrain offers improved positional accuracy and smooth operation in a simplified package

- Intuitive 24" touch screen display combined with TorqCal PRO software streamlines operation for faster, user friendly calibration

- Mobile design facilitates ease of installation and maintenance

- Built in transducer storage shelf holds up to 6 extra transducers within convenient distance for quick access

- A wide variety of adapters and add-ons allow the system to calibrate most any torque tool

- Custom solutions and modifications available

FEATURING A.K.O., INC.'S TSD6500 DIGITAL INDICATOR

- Connects with A.K.O., Inc.'s Proprietary TorqCal Software

- Customizable torque ranges and capacities for all applications

- Expandable up to 8 transducer channels per indicator

- Built in Peak Hold, Unit Conversion, and Zero Tracking functions

- Industry leading accuracy up to 0.1% of reading

A.K.O., Inc.'s Most Versatile Calibration System

With the right adapters and add-ons, this system can calibrate...

Click Wrenches	Torque Multipliers	Tensiometers
Beam Wrenches	Direct Read Torque Multipliers	Dynamometers
Dial Wrenches	Small Hydraulic Wrenches	Force Gauges
Digital Torque Wrenches	Pneumatic Torque Tools	Compression Gauges
Torque Watches	Electronic Torque Tools	Push/Pull Gauges
Torque Screwdrivers	Inline Calibrations	

And more!

All PRO systems feature A.K.O., Inc.'s all new TORQCAL PRO software. Details on reverse side.

Click Wrench Calibration Systems

THE ALL NEW TORQCAL PRO BY A.K.O., INC.

A.K.O., Inc. is proud to present the latest generation of their proprietary TorqCal software. Completely redesigned, the all new TorqCal PRO software suite has been developed with a focus on ease of use, technical excellence, and our decades of experience as a leader in the torque calibration and testing industry.

- Completely redesigned UI with touch screen support improves work flow and improves ease of use
- New Torque Curve graphing feature shows Torque vs. Time for select tool types
- Testing environments and screens are available for each unique tool type
- Test templates are stored and organized by tool type and model number and can be filtered using the search bar
- Save PDFs to portable flash drives or print test certificates directly to paper from TorqCal

- Built in certificate generation
- Embedded style runtime environment
- Test Point creation tools allow for fast and easy test template generation
- Tool, customer, technician, and equipment information are automatically filled in on certificates
- Technician information is automatically completed on certificates with the use of individual user accounts
- Run screens tailored to each specific tool type ensure the best method of calibration is used for each tool
